## **DETAILED ACTION**

## Allowable Subject Matter

Claims 1-20 are allowed. 1.

## Reasons for Allowance

2. The following is an examiner's statement of reasons for allowance:

The closest prior art of record issued to Kay fails to teach or suggest a system and its corresponding method for providing in which a viewer can save content and context related to a transaction conducted via an interactive television system, and the transactions can be performed in a plurality of portions, wherein the process of storing and retrieving information associated with the transaction can be repeated in multiple times at different intervals between which at least a portion of the broadcast segment is provided to the user until the transaction is completed as claimed in claims 1, 6, 10, and 16. Kay teaches a system to offer the user to purchase products and services by saving products to a list of favorites, but with Kay's system, once the user initiates the transaction to order, and the transaction must be completed at one time, without a chance for the transaction to be divided into a plurality of portions which can be stored and retrieved as preferred by the user until the transaction is completed.

Any comments considered necessary by applicant must be submitted no later than the payment of the issue fee and, to avoid processing delays, should preferably accompany the issue fee. Such submissions should be clearly labeled "Comments on Statement of Reasons for Allowance."
